

CORPORATE WEAR

SUNWILL

Established 1963

# SUNWILL CORPORATE WEAR

## — *corporate clothing in business class*

**S**ince 1963, Sunwill has been known for its premium quality and excellent comfort. With an extraordinarily large catalogue of business clothing and a wide range of colours, Sunwill is highly flexible and meets most needs.

Sunwill provides corporate wear for both men and women, and this catalogue presents a snapshot of our range. Please contact our internal sales department for further information.

The range from Sunwill comprises trousers, blazers, waistcoats, skirts and dresses. Several ranges allow you to mix and match, so that you can mix individual pieces together.

A good fit is an important part of corporate wear. The trousers come in styles of classic Regular, casual Modern and the trendy Fitted, to suit all ages and personalities.

## PROUD TRADITIONS AND STRONG VALUES

**B**ack in 1963, Sunwill was founded as an exclusive tailor, producing exclusive men's trousers.

In 1989, the family-owned company F. Engel acquired the ready-to-wear clothing business, which has, over the years, become known and loved for designing and producing unique men's trousers. Today the responsibility for continuing and further developing this tradition-rich men's fashion company lies with CEO John C. Engel.

### High quality, durability and perfect fit

For many years Sunwill has prided itself on specialising as a trouser tailor. The company has since expanded the brand to include ready-to-wear suits, and now also tuxedo and tail coat. Corporate wear continues to be an important branch of Sunwill, and has become a significant part of the company's concept.

The development is entirely the result of Sunwill's continued focus on its core values: high quality, durability and fit - down to the smallest detail. These are values that we take great pride in. We don't just produce clothes by the metre without thinking

about its purpose. We go the extra mile and make clothes that focus 100% on achieving the perfect fit.

### The legacy continues

John C. Engel's grandfather, Carl J. Engel, founded F. Engel with his brother Jacob and their father Friedrich Engel in 1927.

Back then, the company produced work clothes in the new and durable material of denim. John is therefore 4th generation and practically born into the textile industry he so loves.

John C. Engel is humbled by his responsibility of continuing the family legacy into the future, alongside his brother Lars C. H. Engel and a host of talented employees.

Blazer 2015-2722-100 / Waistcoat 2016-2722-100 / Trousers 40304-2722-100

## TRAVELLER

— *always freshly ironed*

**B**y using a special fabric, these clothes are less likely to crease, even after sitting for many hours. The fabric corrects itself and looks almost freshly ironed.

Traveller is most suitable for frequent travellers – or those who need to be presentable and crease-free all day long.

The Traveller range consists of many pieces and styles, and contains business attire for both men and women.

## COLOUR SAFE / WATER AND DIRT REPELLENT — *for extra durability*

**B**usiness wear needs to be more than just comfortable and presentable, it also needs to be durable and tolerate extra wear.

### **Colour safe**

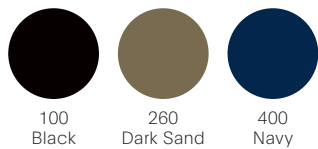

The colour safe technology is a special colour method that makes colours more durable. The fabric is prepared and treated before it is coloured, which binds the colours to the material. This method results in extremely durable colours, which don't fade or turn grey – even after multiple washes.

### **Water and dirt repellent**

To avoid stains forming on the clothes, we add a special water and dirt repellent finish on selected pieces. This finish acts as a special layer that prevents liquid from penetrating the fibres. Any spillages on the clothes will just glide off without leaving any visible marks.

## SUPER STRETCH JEANS — *for better comfort*

**A** nice pair of jeans is the perfect attire for a more casual look. However, the problem with many jeans is that the fabric can seem stiff and inflexible, which is hardly optimal if your job requires you to sit for long periods of time.

The Super Stretch fabric contains larger quantities of elastic fibres than other stretchy fabric. The elastic fibres woven into the fabric make it extra flexible, so that it follows the body's movements. As well as providing supreme comfort, super stretch clothing stands out by its ability to return to its original shape, and thus keeping its shape for longer.

## EXTREME FLEXIBILITY

— *freedom on a whole new level!*

**W**orkwear in a whole new dimension. Extremely stretchy and resilient - a feeling of freedom.

### **Extreme Flexibility**

When it comes to workwear, it is important to feel comfortable. The unique composition of three stretchy textiles gives the Extreme Flexibility series incredible elasticity and dimensional stability.

### **Perfect fit and long life**

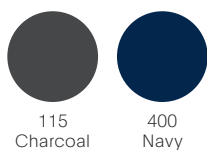

Although the Extreme Flexibility series is very stretchy, the fit is perfect. The elastic textiles retract to their original position after being worn, so that you are still well dressed even after a long day.
